

# MANUFACTURER'S REPRESENTATIVES AND AUTHORIZED DISTRIBUTORS

*Serving the Metro New York, Long Island,  
Lower Hudson Valley and Northern New Jersey Regions.*

## PRODUCT LINE CARD

# HEAT PUMPS

Dalrada Climate Technology specializes in developing cleaner, more efficient alternatives when it comes to heating and cooling needs for both commercial and residential purposes. Dalrada's climate technology delivers an innovative lineup of energy-efficient products and services, including state-of-the-art commercial heat pumps and home heat pumps designed to minimize harmful emissions while maximizing cost savings. Their commercial heat pumps target high energy consumption and combat rising energy costs for businesses of all types, including commercial buildings, hospitals & medical facilities, schools and universities, food production and processing, hotels, gyms, spas, data centers and more.

- Commercial Heat Pumps
- Residential Heat Pumps

Key Benefits: Simultaneous heating and cooling capabilities, Climate agnostic; works in multiple regions, Retrofittable design, modular build, Reduces long-term operational expenses, reduces energy consumption, minimizes carbon footprints, Increases energy efficiency up to 75%.

# BOILERS & WATER HEATERS

## COLUMBIA

After specializing in boiler manufacturing over the last seven decades, Columbia Boiler has amassed a large, variegated product line ideally fitted for brewery, distillery, dry cleaner, seafood processing, bakery, hospital, automotive, home/business heating, and other applications.

- Steam Boilers
- Water Heaters
- Full line of Boiler Accessories

Key Benefits: Easy to Maintain, cost effective, durable & long lasting, rapid lead times

Hurst Boiler & Welding Company has been designing and manufacturing a complete line of solid fuel, solid waste, biomass, gas, coal and oil-fired steam and hot water boilers for nearly half a century. Heating & Process applications include: schools, dry cleaning, hospitals, universities, military & all commercial/industrial operations.

- Firetube Boilers
- Firebox Boilers
- Water Tube Boilers
- Low NOx Boilers
- Skid Packaged Systems
- Feedwater Equipment

Key Benefits: Horizontal and Vertical options, rugged long-lasting design, energy efficient technology, customized skid packages

# BOILERS & WATER HEATERS

The Fulton Companies is an American multi-national group of companies headquartered in Pulaski, New York. Fulton engineers & manufactures complex heat transfer equipment for a wide range of commercial and industrial applications, including clean steam & humidification, healthcare, pharmaceutical processing, brewing & distillation, food processing, college and universities, military bases & government facilities and more.

- Steam Boilers
- Ancillary Equipment
- Hydronic Boilers
- Custom Engineered Skid Systems
- Low NOx Boilers

Key Benefits: High-efficiency equipment, rugged and durable, increased warranty periods, compact footprints, complete boiler room skid packages

Weil-McLain, a division of The Marley-Wylain Company, has been designing and manufacturing hydronic comfort heating systems for residential, commercial and institutional buildings since 1881. Weil-McLain offers a broad spectrum of high efficiency gas-fired, oil-fired and combination oil/gas boilers for commercial use in applications such as offices, schools, restaurants, hotels and other facilities.

- Steam Boilers
- Low NOx Boilers
- Hydronic Boilers
- Indirect-Fired Water Heaters

Key Benefits: Cast iron, stainless steel and cast aluminum designs, highly efficient, easy to maintain, compact footprints, condensing models equipped with roller casters for ease of installation, long life and reliability.

# BOILERS & WATER HEATERS

Industrial Steam Boiler Corporation's line of Scotch Marine field erected boilers fill the long standing need for quality steel boilers that can be moved into existing boiler rooms through available doors, openings and windows. Applications include hospitals and health care facilities, manufacturing plants, schools, and multi-family residential properties.

- Field Erected Boilers
- Firetube Boilers
- Mobile Boilers
- Packaged Boilers

Key Benefits: Built on-site construction allows for flexibility, reliable & efficient

Precision Boilers entered the hydronic heating and plumbing industry in 1946, manufacturing a wide variety of electric and gas-fired steam and hot water boilers and accessories. Precision Boilers serves a range of industrial and commercial markets, including hospitals, schools, government facilities, retail locations, production facilities and more.

- Steam Boilers
- Hot Water Boilers
- Electric Boilers
- Water Heaters
- Ancillary Equipment
- Skid Packaged Systems

Key Benefits: High efficiency electric boiler technology, durable, dependable, and sustainable solutions.

# BOILERS & WATER HEATERS

## Thermal Leverage

Thermal Leverage was formed by bringing experienced thermal/mechanical design engineering together with proven field installation and service experience. Their engineering know-how was forged in the aerospace flight control industry working on planes like the NASA space shuttle, F16, F22 and B2 bomber. This is where they learned the need for cutting edge engineering, precise manufacturing, and strict adherence to quality control standards. Thermal Leverage's products serve commercial and industrial applications such as hospitals, universities, hotels and large apartment complexes.

- Tri-Fuel Electric Boilers
- Clean Steam Generation
- Shell and Tube Heat exchanger design
- Plate and Frame Heat Exchanger design
- Brazed Plate Heat Exchanger design
- Domestic Water Storage
- Domestic Water Mixing/Tempering

Key Benefits: High-efficiency products, nearly 100% efficient tri-fuel boiler, offer both factory packaged and field-erected designs

# PACKAGED SKID SOLUTIONS

Hellan Fluid Systems, a division of The Hellan Strainer Company, offers an array of products and services for the industrial and commercial sectors, including cooling systems, filtration, packaged skid systems and specialty fabrication.

- Prefabricated Packaged Systems

Key Benefits: Customized skid packages and enclosures provide easy plug & play installation, reduced footprints, enhanced safety, and maximum efficiency.

# BURNERS – GAS, OIL & COMBINATION

**Power Flame Inc.**  
AN ASTEC COMPANY

Power Flame Incorporated has half a century of experience in designing and constructing gas, oil, combination gas/oil, low NOx burners, and combustion control systems. Power Flame's environmentally conscious products are designed for commercial, industrial and process applications.

- Burners/Low NOx Burners
- Burner Management Systems

Key Benefits: Fuel-efficient modular design, environmentally friendly, dependable, durable

## PUMPS & HYDRONIC SPECIALTIES

Armstrong Fluid Technology produces innovative and energy-efficient fluid flow and control equipment for hvac and water-based process applications. Armstrong integrates advanced mechanical capabilities and controls intelligence to deliver pumping and hvac solutions that are highly efficient and cost effective.

- Commercial Pumps
- Heat Exchangers
- Automation & Optimization Control Systems
- Chilled Plant Package Systems
- Intelligent Fluid Management Systems

Key Benefits: Highly efficient and reliable, energy and cost savings, carbon savings, measured and proven results

## STEAM & HYDRONIC SPECIALTIES

TLV Corporation manufactures and sells steam traps, condensate pumps, pressure reducing valves and other fluid measurement and control equipment since the 1950. TLV products help support an abundance of steam-using industries across the world, including pharmaceutical companies, food and beverage, breweries and distilleries, laundry and textiles, cosmetics, energy generation, chemical, paper and printing, and more.

- Steam Traps
- Control Valves, Controllers
- Check Valves
- Condensate Recovery
- Cyclone Separators
- Air and Drain Traps
- Pressure Reducing Valves
- Valves

Key Benefits: Unique items, very specifiable, energy efficient

# INFRARED RADIANT HEATING - GAS & ELECTRIC

Re-Verber-Ray by Detroit Radiant Products Company has tested and manufactured energy efficient infrared heating solutions for over 60 years. Re-Verber-Ray products are recognized as a solution for most commercial, industrial and specialty applications.

- Tube Heaters
- Space and Patio Heaters
- Unit Heaters
- Electric Heaters

Key Benefits: Reduced energy consumption, low emissions, modular, durable, affordable

## ELECTRIC MOTORS

WEG is one of the largest electric motor manufacturers in the world. Founded in 1961, WEG has grown into a global solutions provider of industrial electrical technologies with 45 production facilities throughout the world. WEG offers a diverse and integrated product line serving a variety of industries, including food & beverage, farming & agriculture, building & infrastructure, steel, oil & gas, renewable energy, marine and more.

- Motors
- Drives
- Soft Starters
- Controls
- Panels
- Transformers
- Generators
- Custom Solutions

Key Benefits: Innovative technologies, committed to sustainable production of efficient solutions.

## COMBINED HEAT & POWER

2G Energy provides a wide range of highly efficient, low emission cogeneration systems. Combined heat and power (CHP) is an efficient and clean way of generating electric power and thermal energy from a single fuel source. CHP systems can be employed over a wide range of sizes, applications, fuels and technologies.

- Natural Gas, Biogas, Propane, Gas to Power, and Hydrogen CHP Solutions
- Containerized Solutions from Compact to Outdoor Sound Capsule and a variety of other options

Key Benefits: Substantial energy cost savings, highly reliable and efficient, fast return on investment

# AIR COMPRESSORS

FS-Curtis began producing high quality, world-class industrial equipment in St. Louis, MO since 1854. For more than 160 years, FS-Curtis products have been passed down from generation to generation, proving their recognized value to loyal customers. Their Masterline Air Compressors remain unmatched in terms of durability and performance, along with their rotary screw and oil-less compressor series.

- Reciprocating Air Compressors
- Rotary Screw Air Compressors
- Oil-Free Compressors
- Air Treatment & Accessories

Key Benefits: Energy efficient, reliable, robust design, equipment longevity, competitive pricing

# BOILER & BURNER AUXILIARY EQUIPMENT

## FABTEK

Fabtek is a family-owned and operated company specializing in stainless steel boiler systems. Fabtek has been designing & manufacturing efficient and durable solutions for facilities with commercial and industrial boiler rooms for over 75 years.

- Condensate Units
- Pumps
- Skid Packages
- Boiler Feeds
- Accessories

Key Benefits: Rugged & compact designs, rapid lead times, extended warranties, durable, efficient

## MARLO INCORPORATED

Marlo Inc. offers an extensive line of equipment to solve water treatment problems for residential, commercial, institutional, and industrial applications such as health care and hospitals, educational facilities, food and beverage production, pharmaceuticals and cosmetics, hotels, resorts and casinos, government/institutional and more.

- Reverse Osmosis Systems
- Water Softener Systems
- Water Filtration Systems
- Specialty Ion Exchange/High Purity Systems

Key Benefits: Efficient, cost-effective

## Honeywell

Honeywell manufactures an extensive line of boiler & burner control products for commercial and industrial HVAC applications, including heating, cooling, humidifying, and indoor air filtration.

- Flame Detectors
- Temperature Controls
- Flame Amplifiers
- Switches
- Gas Valves
- Timers
- Ignition Transformers

Key Benefits: Widely used, well known product line, modular, innovative, packaged, integrated control design

# BOILER & BURNER AUXILIARY EQUIPMENT

Security Chimneys International has over 50 years of experience in designing durable and efficient stainless steel/aluminum chimney systems. SCI's product lineup includes a variety of industrial-strength chimneys, all designed for Category I, II, III, and IV heating boilers, domestic water boilers, and low to high-temperature hydronic heating applications.

- Chimneys & Gas Vents
- Combustion and Make-up Air Systems
- Draft Controls
- Draft Inducers
- High Performance Exhaust Systems

Key Benefits: Quality materials are highly corrosion resistant, extremely durable

## SIEMENS

Siemens Combustion Controls offers a wide-range of combustion related solutions for commercial and industrial boilers and burners, from standalone controls and end devices to total combustion control systems.

- Linkageless Burner Management Systems
- Gas Shut Off Valves
- Flame Safeguards
- Touchscreen/Combustion Enclosure
- Temperature/Pressure Controllers
- Sensors
- Control Valves
- Gas Flow Meter Kits
- Pressure Switches

Key Benefits: Optimizes product performance, ensures safe operation, long dependability

# BOILER & BURNER AUXILIARY EQUIPMENT

Since 1927, Super Radiator Coils has engineered and manufactured coils, industrial heat exchangers and nuclear products spanning a variety of industries, including power generation, gas compression, HVAC, military, food processing and storage, data center and electronics cooling, and more.

- Coils
- Industrial Heat Exchangers

Key Benefits: Easy to install, operate & maintain

Lockwood Products, Inc. have been designing, manufacturing and servicing low pressure steam boiler auxiliary equipment in Atlanta, GA since the 1930's. These systems are used primarily in heating and process applications for commercial, industrial and institutional facilities.

- Deaerators
- Boiler Feed Systems
- Condensate Return Systems
- Blowdown Separators
- Pumps
- Custom Packaged Systems

Key Benefits: Versatile equipment, expansive inventory, fast shipping, reliable technical assistance

# BOILER & BURNER AUXILIARY EQUIPMENT

## INSTRUMENTS

RKI Instruments, Inc. is an innovative gas detection company located in Union City, California. RKI was established in 1994 with the belief that customers and distributors deserve a reliable source for advanced gas detection equipment as well as solutions to specific gas monitoring applications.

- Gas Detection Systems

Key Benefits: Highly reliable, highly configurable, very cost effective.

# PAXTON

Paxton offers a broad line of control products for HVAC, hydronic, plumbing and industrial applications including temperature controllers, air flow sensors, and electric and pneumatic control valves.

- Electronic Domestic Hot Water Mixing Valve Packages

Key Benefits: Good variety, good for retrofits and new installations.

# ATI MANUFACTURERS BY SALES TERRITORIES

## **ARMSTRONG FLUID TECHNOLOGY:**

**NY:** Nassau, Suffolk, Lower Hudson Valley, Bronx, Queens, Manhattan, Brooklyn, Staten Island

**NJ:** Morris, Passaic, Sussex, Union, Middlesex
