

MANUFACTURER'S REPRESENTATIVES AND AUTHORIZED DISTRIBUTORS

*Serving the Metro New York, Long Island,
Lower Hudson Valley and Northern New Jersey Regions.*

PRODUCT LINE CARD COMMERCIAL & INDUSTRIAL PLUMBING & WATER SUPPLY EQUIPMENT

HEAT PUMPS

Dalrada Climate Technology specializes in developing cleaner, more efficient alternatives when it comes to heating and cooling needs for both commercial and residential purposes. Dalrada's climate technology delivers an innovative lineup of energy-efficient products and services, including state-of-the-art commercial heat pumps and home heat pumps designed to minimize harmful emissions while maximizing cost savings. Their commercial heat pumps target high energy consumption and combat rising energy costs for businesses of all types, including commercial buildings, hospitals & medical facilities, schools and universities, food production and processing, hotels, gyms, spas, data centers and more.

- Commercial Heat Pumps
- Residential Heat Pumps

Key Benefits: Simultaneous heating and cooling capabilities, Climate agnostic; works in multiple regions, Retrofittable design, modular build, Reduces long-term operational expenses, reduces energy consumption, minimizes carbon footprints, Increases energy efficiency up to 75%.

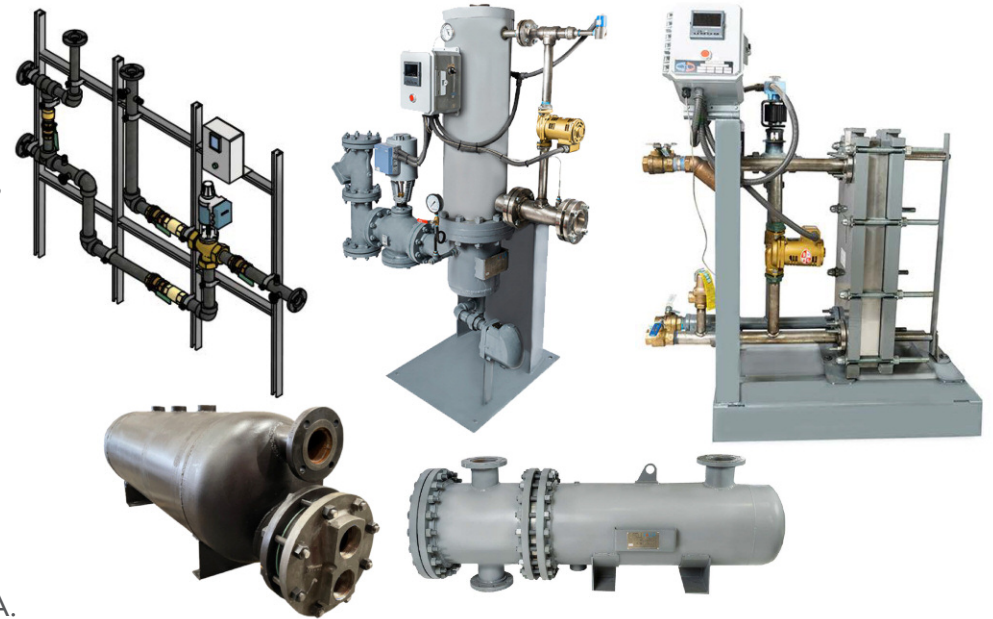

BOILERS, WATER HEATERS & HEAT EXCHANGERS

Thermal Leverage

Thermal Leverage was formed by bringing experienced thermal/mechanical design engineering together with proven field installation and service experience. They provide cutting edge engineering, precise manufacturing, and strict adherence to quality control standards. Thermal Leverage's products serve commercial and industrial applications such as hospitals, universities, hotels and large apartment complexes.

- Fulcrum Water Heaters (Steam-to-Water / Water-to-Water)
- Pivot Plate Water Heaters
- Shell and Tube Heat Exchangers
- Plate and Frame Heat Exchangers
- Domestic Hot Water Storage Tanks
- Domestic Hot Water Mixing Valve Stations

Key Benefits: High-efficiency products, designed and manufactured in the USA.

WEIL-McLAIN®

Weil-McLain, a division of The Marley-Wylain Company, has been designing and manufacturing hydronic comfort heating systems for residential, commercial and institutional buildings since 1881. Weil-McLain offers a broad spectrum of high efficiency gas-fired, oil-fired and combination oil/gas boilers for commercial use in applications such as offices, schools, restaurants, hotels and other facilities.

- Indirect Domestic Hot Water Systems, Including:
 - Non-Condensing Boilers
 - High-Efficiency Condensing Boilers
 - Indirect-Fired Water Heaters

Key Benefits: Cast iron, stainless steel and cast aluminum designs, highly efficient, easy to maintain, compact footprints, condensing models equipped with roller casters for ease of installation, long life and reliability

BOILERS, WATER HEATERS & HEAT EXCHANGERS

Fulton engineers & manufactures complex heat transfer equipment for a wide range of commercial and industrial applications, including clean steam & humidification, healthcare, pharmaceutical processing, brewing & distillation, food processing, college and universities, military bases & government facilities and more.

- Indirect Domestic Hot Water Systems, Including:
 - Non-Condensing Boilers
 - High-Efficiency Condensing Boilers
 - Ancillary Equipment

Key Benefits: High-efficiency equipment, rugged and durable, increased warranty periods, compact footprints, complete boiler room skid packages.

Precision Boilers entered the hydronic heating and plumbing industry in 1946, manufacturing a wide variety of electric and gas-fired steam and hot water boilers and accessories. Precision Boilers serves a range of industrial and commercial markets, including hospitals, schools, government facilities, retail locations, production facilities and more.

- Electric Hot Water Storage Heaters
- Gas/Oil Non-Condensing Water Heaters

Key Benefits: High efficiency electric boiler technology, durable, dependable, and sustainable solutions.

BOILERS, WATER HEATERS & HEAT EXCHANGERS

COLUMBIA

After specializing in boiler manufacturing over the last seven decades, Columbia Boiler has amassed a large, variegated product line ideally fitted for brewery, distillery, dry cleaner, seafood processing, bakery, hospital, automotive, home/business heating, and other applications.

- Gas/Oil Tankless Non-Condensing Water Heaters

Key Benefits: Easy to Maintain, cost effective, durable & long lasting, rapid lead times.

PACKAGED SKID SOLUTIONS

Hellan Fluid Systems, a division of The Hellan Strainer Company, offers an array of products and services for the industrial and commercial sectors, including cooling systems, filtration, packaged skid systems and specialty fabrication.

- Prefabricated Packaged Systems

Key Benefits: Customized skid packages and enclosures provide easy plug & play installation, reduced footprints, enhanced safety, and maximum efficiency.

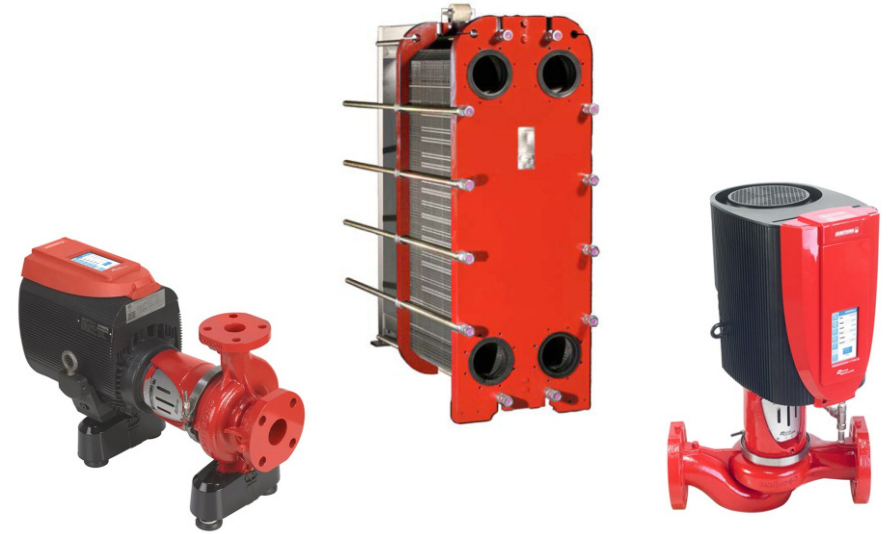

PUMPS & HYDRONIC SPECIALTIES

ARMSTRONG

Armstrong Fluid Technology produces innovative and energy-efficient fluid flow and control equipment for hvac and water-based process applications. Armstrong integrates advanced mechanical capabilities and controls intelligence to deliver pumping and hvac solutions that are highly efficient and cost effective.

- Commercial & Residential Water Pumps
- Water Booster Pumps
- Prefabricated Packaged Systems
- Heat Exchangers

Key Benefits: Highly efficient and reliable, energy and cost savings, carbon savings, measured and proven results.

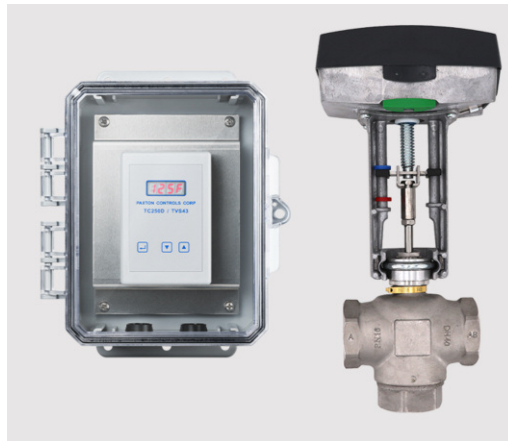

DHW MIXING VALVE PACKAGES

PAXTON

Paxton offers a broad line of control products for HVAC, hydronic, plumbing and industrial applications including temperature controllers, air flow sensors, and electric and pneumatic control valves.

- Electronic Domestic Hot Water Mixing Valve Packages

Key Benefits: Good variety, good for retrofits and new installations.

WATER TREATMENT

MARLO INCORPORATED

Marlo Inc. offers an extensive line of equipment to solve water treatment problems for residential, commercial, institutional, and industrial applications such as health care and hospitals, educational facilities, food and beverage production, pharmaceuticals and cosmetics, hotels, resorts and casinos, government/institutional and more.

- Reverse Osmosis Systems
- Water Softener Systems
- Water Filtration Systems
- Specialty Ion Exchange/High Purity Systems

Key Benefits:
Efficient,
Cost-effective

GAS DETECTION SYSTEMS

RKI Instruments, Inc. is an innovative gas detection company located in Union City, California. RKI was established in 1994 with the belief that customers and distributors deserve a reliable source for advanced gas detection equipment as well as solutions to specific gas monitoring applications.

- Gas Detection Systems

Key Benefits:
Highly reliable,
highly configurable,
very cost effective.

ATI MANUFACTURERS BY SALES TERRITORIES

ARMSTRONG FLUID TECHNOLOGY:

NY: Nassau, Suffolk, Lower Hudson Valley, Bronx, Queens, Manhattan, Brooklyn, Staten Island

NJ: Morris, Passaic, Sussex, Union, Middlesex

COLUMBIA BOILER: Bronx, Kings, Queens, New York City, Richmond, Nassau, Suffolk & Westchester

DALRADA CLIMATE TECHNOLOGY: Suffolk, Nassau, Queens, Kings, Bronx, Richmond, New York City

FULTON (STEAM & HYDRONIC): Richmond, Putnam, Dutchess, Orange, Westchester, Rockland, New York City, Bronx, Kings, Queens, Nassau, Suffolk

HELLAN FLUID SYSTEMS: Bronx, Kings, Queens, New York City, Richmond, Nassau, Suffolk

MARLO INC.: Undefined

PAXTON: No Territory Restriction

PRECISION BOILERS: New York City, Orange, Putnam, Rockland, Bronx, Richmond, Queens, Kings, Nassau, Suffolk, Westchester

RKI INSTRUMENTS: Undefined

THERMAL LEVERAGE: Bronx, Kings, Queens, New York City, Richmond, Nassau, Suffolk

WEIL-MCLAIN:

NY: Suffolk, Nassau, Queens, Kings, Bronx, Richmond, New York City, Rockland, Westchester

NJ: Sussex, Warren, Passaic, Bergen, Morris, Essex, Hudson, Hunterdon, Union, Somerset, Middlesex

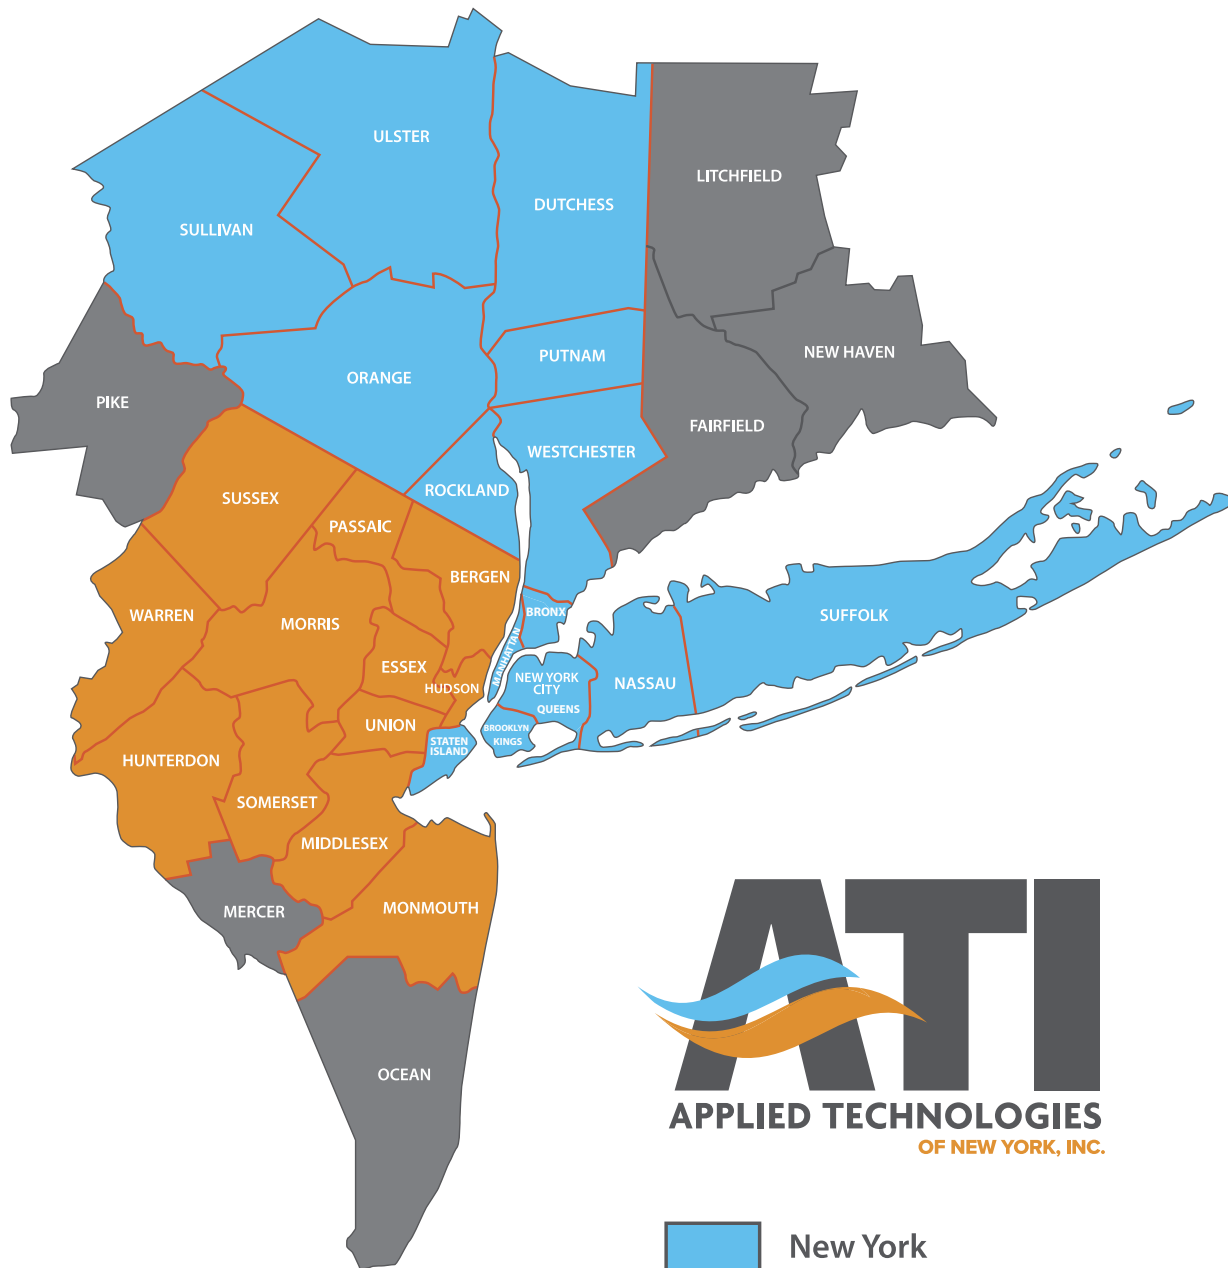

90 Plant Avenue, Suite 110, Hauppauge, NY 11788
